

LiftCase Battery

PORTABLE LIFT TRUCK POWER

The LiftCase battery is a lightweight, powerful tool that moves new lift trucks without its battery, or those that have failed and require external power. Able to deliver up to 800 amps of current, it has enough power to move Class 1 lift trucks, & sufficient capacity to deliver an entire truckload of lift trucks. It is the ideal solution to get your lift truck moving in the warehouse and on service calls.
